DECLARATION OF WILLIAM LUKE MARSH

EXHIBIT 1

September 13, 2005

Mr. Paul Mulder,

Please accept this Letter of Intent from Oceanografía, S.A. de C.V. in response to your offer for transport of the vessel Jascon 5 from India to Mexico.

The 10% down payment will be made immediately upon some clarifications of the proposed Charter Agreement.

LC will be issued within 7 working days after signing of contract.

We need you to stipulate that the departure date is no later than November 15, 2005 via Suez Canal. (This is important to Oceanografía to meet contractual requirements in Mexico.)

It is understood by Oceanografía that the lump sum price in the offer includes fuel and lubricantes, subject to a "fuel escalation" above the fuel price indicated in the offer. We accept that.

Please clarify the item 4.7 that indicates that "charterers provide fuel and lubricantes."

I appreciate your response and will act accordingly.

Best regards,

Ing. Amado Yanez Osuna

Dear Mr. Mulder,

Thank you for your quick response. Oceanografia confirms that the second payment is wire transferred today.

We agree to the third payment schedule presented today of

\$ 1,312,500.00 USD before 20 October 2005 and prior to your transit of the Suez Canal.

I would also ask that you consider the following as acceptable to Fairmount.

Payment of \$ 1,575,000.00 USD (30%) be made 48 hrs prior to loadout of the J5.

Payment of \$ 1,050,000.00 USD (20%) be made 48 hrs prior to arrival Mexico of the tow and offloading.

Please advise me if this payment scenario will be acceptable to your Board of Directors.

We appreciate your working with us and assisting us.

Sincerely yours

Dear Wesley / Amado,

We refer to our telephone conversation a few moments ago. We understand it is not feasible to obtain a bankguarantee.

In order to overcome this inability to comply to the agreed terms of the contract, we can propose the following payment schedule, subject reconfirmation / acceptance of FHT Board:

Payment of 2nd instalment of freight - Done today

* Payment of 3rd instalment of freight

* To be done 48 hrs prior to passage of the Suez Canal of the FAIRMOUNT FJORD during mobilisation to Mumbai. Present ETA of the barge at the Suez Canal is around 20-22 October 2005. Payment should therefore be in Owners account 2 days prior to ETA barge at Suez, i.e. 18 - 20 October. In case of any delay in payment, barge can not proceed with the suez canal passage. Any waiting time for the barge due to late payment, to be charged at demurrage rate as mentioned in the contract.

* Payment of the remaining instalments: Full freight plus any demurrage due until completion of loading, if any, to be due and payable upon completion of loading

We look forward to hearing from you.

With kind regards, Paul Mulder / Fairmount Marine B.V.

Dear Amado / Bert,

Please be informed that contrary to what has been advised earlier this week, we still have not received payment of the second instalment of freight nor did we receive the bankguarantee.

Please send us without any further delay a statement of payment of the 2nd instalment of freight from your bank and the bankguarantee.

We have last week informed Mr. Borbolla of Pemex in a convenient meeting that all was arranged in good order by OSA, in good faith that all outstanding items would be properly settled as we were informed. However, the required actions from OSA are still not taken in the meantime. The bankguarantees should have been provided to us a long time ago and payment was due already since last Saturday. In order to avoid unnecessary delays, please let us have evidence of your arrangements by return.

With kind regards,
